350 GPM

FPPM-125

SPECIFICATIONS

Potter Roemer/ Fire Pro® portable monitors are versatile performers, either on the apparatus or in a portable mode. They feature quick "long handle" swivel detachment from the apparatus on the portable base and two "slip in" stabilizing legs with no-skid neoprene pads. The balanced flow single waterway design and precision machining on swivel joints reduces friction loss while improving stream and distance, and ensures ease of operation at all pressure/ flow ranges. Carbon Steel construction with 304 stainless steel swivels. Standard red polyester powder coating inside and out protect against corrosion.

Type 304 stainless steel ball bearings in joints ensure easy movement and reliable operation.

REGULARLY FURNISHED

- 1-1/2" Waterway
- Seamless carbon or stainless steel construction
- · Stabilizing legs with no-skid neoprene pads
- · Zerk fitting for lubrication
- · Low friction loss
- 90° horizontal and 90° vertical travel
- 125-350 GPM (473-1325 lpm)
